Experience

(1 Year 4 Months)

Freelance Full-stack Web Developer

My programming journey began in 2014 when I joined as a web development member for my university department website. Since then, I've maintained a strong curiosity for programming, continuously honing my skills and exploring various web technologies.

1. Web Development for Skyland Immigration and Careers
 - Developed the Laravel-based website for Skyland Immigration and Careers (www.skylandimmigration.com)
 - Created a customized CRM application API using PHP Laravel to streamline operations.
 - Developed both user and employee dashboards from scratch (<https://crm.skylandimmigration.com> and <https://dashboard.skylandimmigration.com>) using React.js and Tailwind CSS, integrated with the CRM API.
2. Development of EarnX - A Web3-Based Platform
 - Contributed to the development of a Laravel API and Next.js web application for the EarnX platform (<https://earnxj.vercel.app>), a Web3-based video sharing and cryptocurrency earning platform.
3. UI Redesign for WaveMaker Sale - DeFi Launchpad Platform
 - Led a UI redesign project using Next.js and Tailwind CSS for <https://www.wavemaker.sale>, a DeFi launchpad platform, enhancing user experience and visual appeal.
4. Influence-Xpert - Brands and Influencers Collaboration Platform
 - Developed a web application UI for a client that facilitates collaboration between brands and influencers using React.js and Tailwind CSS (<https://influence-xpert.vercel.app>).

(2 Years 8 Months)

Dept. of Revenue - Govt. of Andhra Pradesh

Position: Ward Revenue Secretary (VRO)

Nature of Work: Managing land records, revenue collection, and government certificate issuance as a Village Revenue Officer while assisting with election processes, implementing government schemes, and maintaining public engagement.

(4 Years)

T & AS Designtech Services Pvt. Ltd.

Position: Seioner Engineer (Operations)

Nature of Work: Order Processing & Order Management

- Played a pivotal role as a Senior Engineer (Operations) within T and AS Designtech Services Company, specifically assigned to the ASSAABLOY's CURRIES project, a leading manufacturer of hollow metal doors and frames.
- Led a team of 6 members, overseeing day-to-day operations and ensuring the efficient production of high-quality hollow metal doors and frames.
- Conducted quality checks and proactively addressed processing errors to maintain product excellence.

- Provided training and guidance to junior team members, fostering their professional development and resolving project-related inquiries.
- Acted as a key point of contact with customers, primarily through email, to obtain additional project information and approvals, thus strengthening client relationships.
- Collaborated closely with the team to enhance productivity, consistently meeting estimated project ship dates and exceeding customer expectations.
- Maintained meticulous records of innovative concepts and managed comprehensive reports to track project progress and results.
- Orchestrated daily and weekly team meetings, evaluating performance and efficiency, and implementing necessary adjustments to improve outcomes.
- Efficiently managed work allocation and ensured effective task management for the team, optimizing workflow and productivity.
